## THE LEADERS OF LABOR Adjourn Without Taking

Decisive Action.

SOME SENSATIONAL SPRECHES

A Labor Congress to Be Held in Chicago if the Strike is Not Settled in Three Wecks.

St. Louis, August 31.—The conference of labor leaders, which has been in ence of labor leaders, which me scent session here two days, fusished its work this evening. The meeting was pra-ductive of several sensational speechs and many resolutions, yet, no decisive action was taken in the principal matter for which the gathering was summor the abolishment of government by in

Delegates to the convention were slow in assembling this morning, the resolu-tions committee not being ready to re-

port, although continuously in session since 3 o'clock yesterday afternoon.

At 10 o'clock, however, the committee field into the hall and the report was read. As soon as it was before the convention a dozen clauses claumerd for recognition. The debate was linely limited to five infautes.

recognition. The debate was finally limited to five influtes.

The time was otherquently extended to ten minutes, and after a prolonged debate and the offering of many amendments to the platform, the convention adjourned until 2 o'clock.

The delegates were eager for work and the afternoon ecceion was not in motion promptly at 2 o'clock. After considerable talk Mr., Williams of St. Louis endeavored to have the common the provided for in the platform hold in St. Louis. It was decided that the matter should remain as intended in the platform, and the labor congress will be held in Oheago on Monday, September 7th.

Mr. Webster of St. Louis wanted to

of exvirances by Snjunction." He matted congress to investigate this matter, "Why," said Mr. Savereign, "Whis, convention has rejected a proposition looking to this very end. Even if congress it this court of the country would eith looking to this very end. Even if congress it is not the country would eith looking to the country would eith looking to thooke of injunction, and they could then throttle us. The convention should inform the world that if this matter in to be tested, the miners should break all injunctions."

All. Sovereign said the was willing to go to jail in support of his idea.

"It is time," said Mr. Sovereign fervently, "to brink the miners and court lace to face in this neater and force an issue. Fill up the jail with violators of injunctions and when the men who started this movement are incarefacted thousands of others will be found to take their places. The laboring pendic can tote for years, but nothing can be accomplished, Let us reorganize this government," elouted Mr. Sovereign.

"Let us stand up and assert ourselves. Bellium these injunctions said we first them not, Let us hold up the lag and tear down the courts. We dained our dignity and we will have our liberty from this time ou," should Mr. Sovereign.

The convention brake into wild cheer.

our cignity and we will nevel our meerly from this time on," should Mr. Soverseight.

The convention broke into wild cheering, which developed into a spontaneous call for Mr. Debs. He rose from his seat and came slowly to the platform. When the chaoring caseed Mr. Debs began a speech, which was interrupted at the end of nearly every sentence by cheering and hand clapping. He said: "I believe the gravity of the industrial situation in this country is well understood. It is quite evident the delegates to this convention recognize the fact that civil liberty is dead in America. I have said, and say again, for the last time, I have appealed to the courts for instite and similappeal to them no more. The American Railway limin expunded \$15,000 to have the question of civil rights tested in the express courts for instited States, only to he told that we have no right that capital is hound to respect. Stall swappent to the suprome court again? No. We appeal to this convention and the country for an uprising of all the common people in every walk of life to best back the currest and re-embrone the rights of the American people. Labor day is near. What shall we do? I predict, my Irland, that we will see the extraordinary speciace of enclaved habor restling its chains and dancing to the music. Labor is the will see the extraordinary speciacy of enclaved helps rathing its chains and dancing to the music. Labor is the chaesest commodity on God-masth, and yot there are those who would have it at a lower price. The muted voice of labor has been raised spaints the appointment of Mr. Yawderly to a federal position and I netten that he was premptly put into the place. (Mingled there and hisses.)

"From justice of the peace to justice of the supreme court of the United States, all the judicial powers of the United States are directed agrinat the laborer. All the organized sources of society are against the laborer, and fit labor expects emancipation labor itself insection in the labor of the supreme court of the United States are directed agrinate the laborer, all the judicial powers of the labor expects emancipation labor itself must do it.

labor expects semancipation labor itself must do it.

"The time has not quite come to incite the population," said Mr. Dobs, shaking his fist volumently. "I server notice on the pluteracy elament of this country that we are on the eve of another meeting in Chicago which will hastended by all branches of labor. That convention will take up those same questions and will institute agitation and keep it going until the public conscience and the public heart is aroused. Then will enues such a must be such a many such a ma

world has never seen.

"The lime vill come to incite this populace. When that time comes you can depend on me. I will not stand in the rear and sax you togo ahead. I will be format and say to you, come on."

"I florink from that bloodshed," and Mr. Dobe panued impressively, "but it it is necessary to preserve liberty and our right—in that event I will shed the last drop of blood that courses through my volus.

"The people are ripe for a great change. All they lack is direction and leadership. Let this conference supply it. Let this conference supply it the Daily News from Tabrez conistus the news of the heavy sighthing batween the Kurde and Armenians on the frontier. The commander of the cavalry of the Kurde was killed, according to the report, and his ean narrowly cecaned. The losses of the Kurde are variously estimated as from 300 to 800 killed and wounded. The Armenians claim to have lost only twenty.

PENNSYLVANIA DEMOCRATS BE-COME PUBLISTIC.

The State Convention Resolves to Remove Harrity From the National Committee.

READING, Pa., August 31 .- The Demoratic state convention met in this city oday and nominated Walter E. Ritter of Lycoming county for auditor general and M. E. Brown of Bisireville for state cashier. The matter of the celection of cancidates was entirely overshadowed by the fight to force the retirement of Mr. Harrity from the national committee. The opponents of Mr. Harrity concerned in pushing through, by a vote of 290 to 131, a recolution endorsing James M. Guifes for his position. Mr. Harrity's friends contend that the slate convention has no power to declare his seat in the national committee vacant, and that he will not autrender without a fight. cashier. SACHAMENTO, August 31.—The ex-Bookies Association held its regular monthly meeting this morning. The reports of Manager W. T. Phipps and watchmen under his charge were re-seived. Samples were submitted show-ing that in some places small slones, in addition to the slickens and matter car-

ing that in some places small stones, in addition to the slickens and matter carried in suspension, were transported by the action of the water used in mining into the main river channels. It was settinated that from one unins alone 5000 cutie, yardle of this material ward deposited in the river such day. The mines reported on went referred to the attorney of the association to commence proper legal proceedings. It appears from actual measurements taken that the till at Maryaville in the river has increased to a depth of a foot within the past two years, gradually receding upwards, showing the necessity for retaining the material in the river bed between De Guarra and Maryaville. It is proposed this year to raise the levee surrounding Maryaville to an average height of a foot and a half, and the city has lavied a tax of 50 cents on coach \$100 worth of taxable property for that purpose.

Chicago Brokers Deserted the Pit. California Wheat Sold Righer Abroad.

Unicago, August 31.-Wheat opened film at an advance of from \( \frac{7}{2}\) to 1 per bushel for December. The only apparent reason was the strong Liverpool market. The opening quotation from Liverpool gave wheat futures at \( \frac{7}{2}\) dadvance and the next cablegram at \( \frac{7}{2}\) dadvance and the next cablegram at \( \frac{7}{2}\) d Liverpool gave wheat futures at 2/d advirther improvement, making the gain 13/d before the trading started here. The touchery dering the next two hours was to grind a little off the starting advance. The market mill was not running with its recent velocity, so that the faction cannoff reluciantly, and when the bear cased grinding out short wheat the reduction was partly re-established. September was only occasionally heard from, and then it was at some little discount from December conceines 1/6 and again 2/6 under. December started at from 00/5 to 90%, declined to 80% and again 2/6 under. December started at from 00/5 to 90%, declined to 80% and special section. This was due in a great part to 80% and a surface severa decline, getting down of the next depression. This was due in a great part to reporte from the suchoard that foreigners were sellers there. While futures of wheat at Liverpool opened higher, spot wheat was reported and to have opened at seme advance and Liverpool cabled that the Russian offerings were small. At the factory of the Mountville Woolen Company, in Palmerton, near Norwich, Conn., business has increased rapidly until it was never better than now. This concern has orders for months shead, and has advanced its wazes, and will have to put on double gangs of help, and run night and day to keep abreast of the business offering. At the Quadic woolen mills not far from Palman, Conn., there is a demand for help to fill the large amount of orders now pouring in. The factory will be true until 10 o'clock at night for a time. Reports indicate that all the mills in this part of the country will be busy. t the factory of the Mountville Wool

## ELIMINATE POLITICAL QUES-TIONS.

It the doctrine of the free coinage of cilver by the United States is not to be number in the Stanford University, it is fair to presume that the doctrine of gold monumetallism is to be taught there.—Sortion Mail.

There is no more reason why either bimetsilism or monomelallism should he taught in the economic departments of the schools than that the doctrine of vientions atonement or its opposite should be taught in the departments of moral philocophy. Monetary ecleace and ethics should be taught only in their broad sense; technicality and creed should be completely eliminated. The right of teachers to hold their own political and religious views and express them outside the schools with-out fear of molestation is the principle for which the Reconness contonds. The teaching in the schools of political policies, upon which the usonle are widely divided, for which the Mail con-tends, is wrong in principle and will be disastrous in practice if generally

It appears that Mr. and Mrs. Stubbe first learned on Sunday that the papers were publishing disegreeable reports concerning them. That day the wifs returned from a visit to the coast and she found a copy of Saturday morning's REPORTICAN hung on the front gate. The paper contained a Chronicle dispatch about the case and the linding of the lirib by a reporter at E. D. Merriam's place near this city, together with an intervlew with her. The article in question had been marked with ensuith to take attention to the On Monday the rancher and his wife went to Madera and consulted Lawyer Hargrove.

Another factor that tends to give the grower a fine dried fruit market this year is the constant demand in Europe for California dried fruits. A large amount of prumss have been experted to Europe this year, and there is now a constant call for more. A still stronger reason for the present estate of the market is the latter times throughout the United States due to the new tail, which increases for the measure.

Before leaving he said ton Reconside reporter: "I want to see the grower get good prices. If we packers can get a good market in the East we are quite willing to see the grower get as high a price as possible for his raisins. The

willing to see the grower get as high a price as possible for his raisins. The grower and the packer are not so far apart in this county as to favor the importation of foreign raisins.

"I have only recounty returned from Spain. Denia is the part from which Valencia raisins are shipped. There are two steamers now on the way from Denia with relatine at 6½ and 5½ cents respectively. The former is simust due here. As the eastern market now stands the prices demanded by growers here do not justify us in buying raisins for packing purposes. We will have to wait till the eastern market improves. "We have made a number of offers to Eastern hayors on a calculation of 3½ cents a pound in the sweat box, but the Eastern buyers are silent. Putting it this way you will see that it cannot be done. Raisins cost us 3½ cents, peaching 40 cents, commission 20 cents, loss in steaming 18 cents, commission 20 cents, loss in teaming 18 cents; total, \$4.28. We would be glad to sell at \$4.13 for a start, but offers are declined even at that.

"Growers who held out hist year for 4 cents a pound had finally to sell at 2 cents. The unseld valsion of last year have been shipped East from certain local packing houses, but they have not been consumed. Growers who held their raisins this year for speculative prices are taking a havy risk."

It Took the Jury a Very Short Time to Arrive at u Yerdict.

It took a jury about three minutes to find Wilham D. Wolf guilty of embez-zlement in Judge Webb's court yester-day afternoon. The trial was comand at 2,30 o'clock in the morning. and it was inished shortly after 4 o'clock. The prosecution was conducted by Destrict Attorney Snow and F. E.

Jook defended.

The first difficulty encountered in the visit was the fact that the defendant had so atomey. Shortly after his arrest wolf made arrangements with Lewis et. Smith to defend him, but after incachigating the case the attorney advised him to plead utility. The prisoner would not have the lawyer defend him under these circumstances and than Judge Webt appointed Frank Kanka and S. L. Strother. These attorneys also advised both appointed Frank Kanka and S. L. Strother. These attorneys also advised Wolf to plead unity after looking into the case, and the defendant of tasel in court yesterday morning. He desired to have a lawyer who would earnestly delend him, and of course this privilers was due him.

Indee Webb then sent for Attorney F. C. Cook and be did the best in condition that he held in the best in condition and having no time for preparation. "There is plenty of work here, but it requires a ctoat and able-bodied man to fail the bill. Packers and loggers and longehoremen get \$5 a day and board, and the three or four two-hore teams that are here get \$10 a ton for hauling four miles over a vary fair road.

"Hon't advise any slendor, watery-jointed young men to come here, for, although wages are high, it takes a man of muscle to do the work. But, if any big, muscular fellow who is not afraid of work asks your advice, tell him. SUING HER.

Three Attachments hevied Upon Her Pretty Parisian Gowns and langerie.

Mrs. Fennell's trials continue. latestis an attempt of a creditor to at-tach her personal effects at the flotel Metropole in Oakland, where she has been trying to live in seclusion the past six weeks. The Chronicle yesterday contained the following dispatch from Oak land:

hy Detrict Attorney show and F. 15.

Cook defended.

The first difficulty encountered in the trial was the fact that the defendant had Sheriff Al White upon Mrs. Amands J. Pennell at the Hotel Metropole for delta. contracted by her and due Jules C.

contracted by her and due Jules C. Ganaga, a bill collector of San Francisco, as assignee. The deputy sheriff roused Mrs. Fennell and damanded possession of her personni effects, presenting three attachments—one for \$1389, one for \$2168, and the other for \$70.

Sheriff White was accompanied by Mr. Ganage, who amonaced to the hotel proprietors that he knew where the Fonnell effects were kept and he proposed to have them. Proprietor Campbell of the hotel denied that for Ganagada were within the teach of the officer, and then Jrs. Fennell was sent for.

officer, and then Mrs. Fenuell was sent for.

Her attorney, Heary McDike, happened to be in consultation with her at the time, and responded to the semmanns. He announced that Mrs. Fenuell could not be seen at all, and that there was nothing within reach that the officers might levy an attachment upon.

Gamage was positive in his dealings with McPike, and told him he had come to remain until the attachments were satisfied. He explained that there was to be no alternative, but finally agreed to give Mrs. Fenuell until tomorrow morning to satisfy all these claims. If they were not paid thou, be warned McPike that he would soin all her costumes and household effects and commence new proceedings without delay. The amounts claimed by Gamage are alleged to be due on assigned chains and personal obligations, and Gamage seems to be in a deeperate state of mind over them confinity. It is evident that some

positive action will result from tonight's proceedings.

Mrs. Feurnell came here seeking rest and quiet, and has been seen very little by any one since her arrival. She brought with her a fabrilloss wardrube and a retinue of pet doze, and it is the coluting which the officers are now recking to attach. There will be another chapter in the etery acted out at the late! comorrow morning.

Mrs. Fennell is keeping her possessions as much out of the way ne possible, and both Gamace and Sherff While summines tonight that they will carry away her goods, clothing and all tomorrow. Gamace was formerly Mrs. Fennell'e speat.
